Experience

Freelance Full Stack Developer

Remote, NYC

Abigail Designs LLC

July 2023 - Present

Skills : HTML, CSS, JavaScript, MongoDB, Express, React, Node, Bootstrap, Mongoose, Github, Vercel, Render, Figma, VS Code, Photoshop, Indesign, Illustrator

- Built **responsive, user-centric applications** using JavaScript frameworks and the **MERN stack** to create scalable and high-performance solutions
- Implemented front-end features using React, leveraging **component-based architecture** and hooks for reusable and maintainable code
- Managed **40+ public Git repositories**, driving collaboration, version control, **code review** to maintain high-quality code and project transparency throughout the project lifecycle
- Optimized web performance and streamlined CI/CD workflows by deploying **20+ web applications** using Vercel and Render

Senior Architectural Designer

Hybrid, NYC

Moody Nolan

May 2022 - May 2024

- Led the technical design and development of **multiple high-profile projects**, including a 2,000sq ft culinary institute, collaborating closely with the project manager, engineers and specialists to ensure seamless integration of user requirements
- Utilized **agile methodologies** and collaboration tools (Miro, Bluebeam) to work effectively with **cross-functional teams**, including engineers, specialty designers, and contractors
- Co-managed **a team of 4** to deliver projects on time and within budget, integrating client feedback to create optimal solutions

Architectural Designer II, Architectural Designer I

Hybrid, NYC

Architecture plus Information

April 2017 - May 2022

- Designed and completed construction on **7 high-end commercial projects** in NYC, Colorado, and Texas.
- Produced **high quality technical drawings** and manuals to translate complex design concepts into construction documents and specifications
- Implemented digital workflows to create 3D models and visualization using **Building Information Modeling (BIM)** software like Revit, AutoCAD, Sketchup and Enscape for client presentations and **UI/UX design**
- **Awards**: Interior Design NYCxDesign Winner 2023, 2023 Design Awards of Honor

Featured Project

YelpCamp

[YelpCamp](#)

Skills : JavaScript, MongoDB, Express, EJS, Node, Bootstrap, JWT, Helmet, Multer, Passport, Mongoose, Mapbox API, Cloudinary, Github, Render

- Created a **Full-Stack web application** for a campground review platform, implementing EJS for the front-end and MongoDB for the back-end where users can add campground data, photos, and reviews to a global map
- Implemented **User Authentication & Security** with Passport.js and JWT, securing handling of sensitive data and preventing against vulnerabilities such as SQL injection and XSS attacks
- Utilized **Mapbox API** to create an interactive geospatial map displaying campground locations with **dynamic clustering and zoom features** for an enhanced user experience
- Applied **test-driven development (TDD)** principles to ensure application security, scalability, and performance, focusing on data protection

Education

Web Developer Bootcamp, Udemy | **Master of Architecture**, University of Virginia | **Bachelor of Design**, Major in Architecture, University of Florida
